

# BLOWN AIR FIBRE COMPRESSOR - PETROL

Compact Compressor for use with Fibre Cable Blowing machines in FTTH/FFTP last mile installations. This compressor produces oil free air. The cast aluminium construction and heat-treated components give this unit very long work life.

## FEATURES & BENEFITS

Oil free air production
Tankless design
Heated-treated components for longer life
Unique connecting rod system for perfect balance
Heavy duty reinforced delivery pipe
Stainless steel valves
Condensate filter
Cast aluminium construction
Air cooling radiator with pressure stabilising valve
V-configuration oil-less compressor pump

## SPECIFICATION

Product code	W2260
Engine	3 HP/3000 rpm SUBARU Petrol
Air flow rate	9.5 CFM (270 litre/min)
Maximum pressure	145 psi (10 bar)
Noise level	80dB LpA / 94 dB LwA
Fuel tank capacity	3.5 litre
Weight	25kg
