

CABLE REEL DISPENSER D-ROLL 300 TED®

TED®

Universal cable winder/unwinder for all small to medium drums. The D-Roll 300 cable reel dispenser is designed to accommodate both new and damaged drums weighing up to 300kg. For larger drums, it is possible to screw the D-Roll 300 onto the reel flange to facilitate its positioning and prevent movement during use.

Its adjustable brake allows to manage the speed of the rotation of the dispenser plate.

Equipped with non-slip feet, it is suitable for deployments both indoors and outdoors. The D-Roll 300 is compact and lightweight, making it easy to store in a backpack and convenient to carry with one hand thanks to its handle.

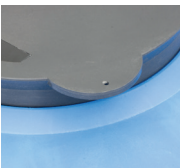

TECHNICAL SPECIFICATION

- Max working load: 300kg
- Removable mandrel
- Handle
- 4 rubber anti-slip feet
- Adjustable brake
- 3 fixing ears

ADVANTAGES

- Versatile: enables all sizes of drum from small to medium
- Compact: fits in backpack
- Very stable
