

# COVER ROLLER

## MANHOLE LIFTING

Make light work of manhole cover management with the innovative Cover Roller featuring a durable metal bar. Designed for professionals who require efficiency and safety, this essential tool is perfect for opening and repositioning heavy manhole covers with ease.

Weight: 2kg

Dimensions: 1000mm x 30mm diameter

### FEATURES & BENEFITS

- **Durable Construction:** Made from high quality metal, ensuring long lasting performance and resistance to wear and tear.
- **Effortless Operation:** The metal bar provides leverage, allowing users to roll manhole covers smoothly into a secure position after opening.
- **Enhanced Safety:** Reduces the risk of injuries by minimising the physical strain typically associated with lifting and moving heavy covers.
- **Versatile Use:** Ideal for utility workers, maintenance crews, and anyone involved in underground access operations.
- **Manufactured from galvanised steel**
