

DUCT ROD PUSHER

Duct Rod Pushers are designed to assist in rodding operations. The units are mounted on sturdy, anti corrosion treated tubular steel frame, and fitted with gel filled puncture proof tyres, with hydraulic controls mounted on the frame for ease of transportation. The pushers are fitted with a tilting extendable boom, and chamber clamp for use in underground structures.

FEATURES & BENEFITS

- Spring loaded self-centring fail safe operating lever
- Lifting eye
- Cast aluminium body
- Angle of operation 0 - 45°
- Moulded profiled drive belts
- Anti crush control to prevent damage to rod
- Measuring counter with reset lever
- Disc spring controlled screw clamp to engage drive belts onto the rod
- Front boom extending to 1 metre with angle facility dropping into underground chamber
- Split pusher body which lifts and rotates to allow removal of duct rod
- Extendable chamber clamp for attaching to sidewalls, range 400 - 800mm

SPECIFICATION

Diameter Range	14mm
Installation Speed	0-30m/min*
Pushing/Pulling capacity	220kgs at 60bar
Length	1050mm
Width	700mm
Height	760mm
Weight	53kg
