

Evolv® Terminal Bracket Wall- and Pole-Mount

CORNING

**Part Number:
EHC-BKT-Wall**

Pushlok™ hardened connector technology is the key component enabling smaller terminals for FTTx networks than ever before. Designed for use in nearly every access network environment, the terminal is small enough to be placed in existing handholes or pedestals where space is paramount, on building facades, or in aerial networks (pole- or strand-mount). Improved aesthetics improve end-user adoption for facade applications. To improve accessibility and the installation of Evolv® HC terminals, there are three styles of brackets available: a wall- and pole-mount terminal bracket, handhole-mount bracket, and strand-mount terminal bracket.

Evolv® Terminal Bracket Wall- and Pole-Mount

Specifications

| General Specifications | |
|------------------------|------------------------|
| Product type | Accessories |
| Lockable | No |
| Environment | Outdoor |
| Mounting Type | Wall-mount, Pole-mount |
| Application | FTTx |

| Standards | |
|-----------|---|
| RoHS | Free of hazardous substances according to RoHS 2011/65/EU |

| Ordering Information | |
|----------------------|--------------|
| Product Number | EHC-BKT-Wall |
| Units per delivery | 1/1 |
