

BOWL GALVANISED 9"

BUCKETS, BOWLS & CONTAINERS

The 9" Galvanised Bowl is a versatile tool, designed for practical use in various field tasks. It is ideal for bailing water out of joint boxes or warming water on propane stoves, assisting in the preparation of resin mixtures. Crafted from durable galvanised iron, this bowl is built to withstand demanding environments. The wooden handle ensures a comfortable grip, even during extended use.

CODE	DESCRIPTION
BOWL	Bowl Galvanised 9"
