

KEY JOINT BOX 4

MANHOLE LIFTING KEYS

The Key Joint Box 4 is a professional-grade manhole cover lifter engineered for ease, safety, and ergonomic use. Featuring an extended handle, this tool allows users to remove manhole and joint box covers while standing, reducing strain and risk of injury. It is ideal for use in demanding telecoms and utility environments where efficiency and safety are paramount.

Dimensions: 700x120x110mm

Weight: 1.85kg

FEATURES & BENEFITS

- Key Joint Box 4 is compatible with most covers except Types 21 and 22, Frame & Cover Unit Type Light, and Frames & Cover Carriageway 4.
- This tool is the perfect upgrade from the Key Joint Box 2
- Reducing strain and risk of injury.
