

RTP SC/APC

Remote Termination Point SC/APC

The RTP is a compact box allowing to fix the optical termination point SC/APC for an optical extension.

It can be used also as a discreet optical termination outlet with a 3mm diameter cable coming from outside.

It's designed to receive a pre-connectorized cable or allows the installation of a field mountable connector.

Its small size and neat design ensures a discreet integration inside the customer premises.

FEATURES
