

STORM FIBRE BLOWING MACHINE

CABLE BLOWING MACHINES

The C-1850 Storm handheld fibre-blowing machine has been developed to provide a simple, reliable, and efficient solution for installing microfibre. Its compact design features an integrated duct clamp and seal system, allowing compatibility with 5 mm, 7 mm and 8 mm subduct sizes while supporting fibre up to 3 mm in diameter. User-adjustable torque and speed limits offer precise control during installation, and the built-in cruise-control function enables smooth, hands-free operation. Combining ease of use with dependable performance, the Storm delivers low-maintenance operation and consistent results across a wide range of blowing conditions.

- **Fibre Compatibility:** Up to 3 mm
- **Blowing Speed:** Up to 100 m/min
- **Machine Weight:** 1.8 kg (inc. battery)

MAIN FEATURES

- In-built tube clamp and seal
- Cruise control
- User settable torque and speed
- Toolless maintenance and operation
- DeWALT® tool battery powered
- Lightweight, less than 2 kg
- Supplied with 2 x 2Ah batteries
- Bright OLED display

ORDERING INFORMATION

C-1850	Storm handheld fibre blower machine inc. battery & charger
C-1850-BU	Storm handheld fibre blower machine only
C-1850-KIT	Storm handheld fibre blower machine UK kit
C-1850-EU-KIT	Storm handheld fibre blower machine EU kit

TECHNICAL SPECIFICATION

Fibre Compatibility	Up to 3mm
Blowing Speed	Up to 100m/min
Compatible Tubes	5mm, 7mm, 8mm
Automation	Cruise Controlled Speed
Maximum Air Pressure	15 Bar Max
Electrical Supply	18V
Control	Manual
Machine Size	L: 155mm W: 110mm H: 290mm
Machine Weight	1.8kg (including battery)
Case Size	L: 524mm W: 428mm H: 206mm
Machine & Case Weight	9kg
