

19" BAY GLASS FRONT DOOR CABINETS

SINGLE DOOR CABINET

This robust 19" rack cabinet is designed to provide secure, adaptable, and reliable housing for network and IT equipment. Built with a sturdy steel frame and high load capacity, it ensures long-lasting performance for demanding environments.

The cabinet supports flexible configuration, with removable side panels for easy access, adjustable 19" mounting rails for efficient equipment positioning, and multiple door options to suit different airflow and security needs. A lockable system enhances protection, while optional ventilation units and castor wheels allow further customisation depending on installation requirements.

FEATURES & BENEFITS

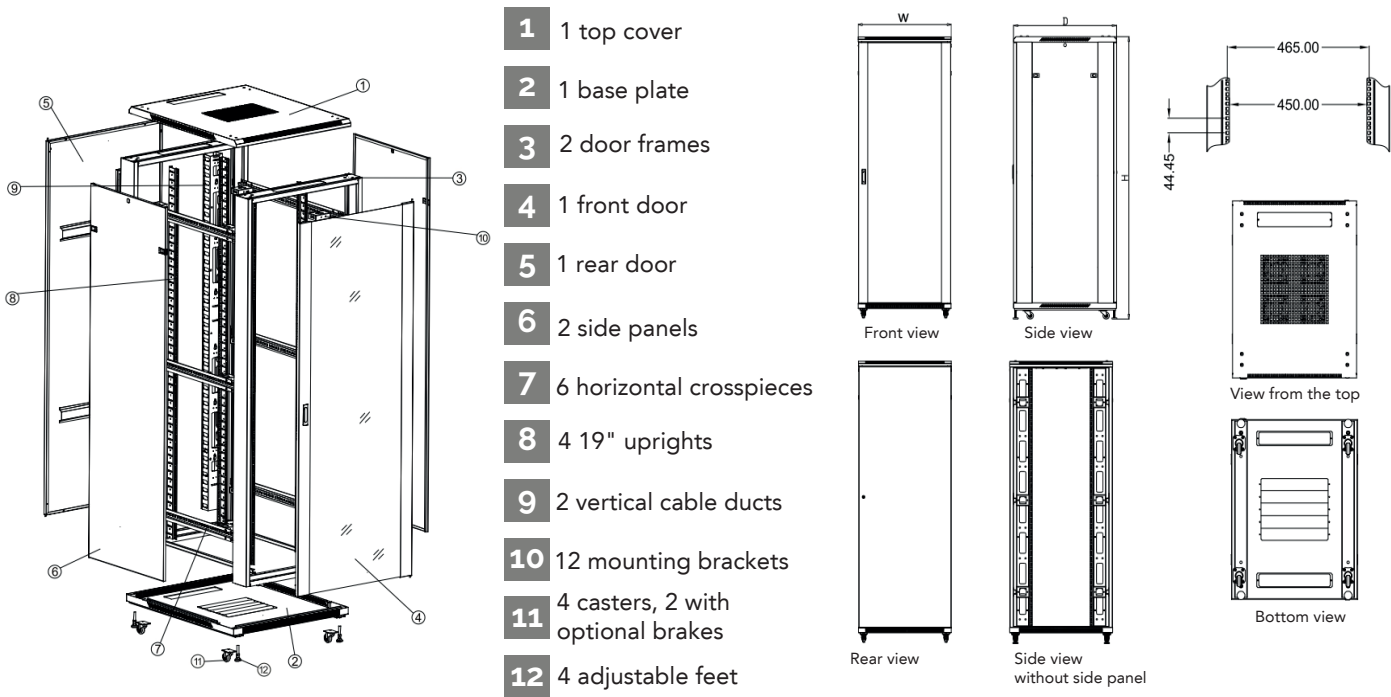

- IP20 as standard
- Set of 2 removable side panels, lockable
- Supplied with 4 leveling feet for height adjustment
- Screws and grounding kit included

OPTIONS

- Fans
- Wheels
