

N-BOLTS M12

BOLTS, WASHERS & NUTS

high-performance fasteners manufactured from mild steel Grade 4.6, offering dependable strength for heavy-duty applications. These U-shaped bolts are fully hot dip galvanised (H.D.S.G.) to provide excellent corrosion resistance, making them ideal for use in harsh outdoor environments, including telecoms infrastructure, utility installations, and structural supports.

Engineered to precise standards, the M12 diameter ensures robust clamping force and compatibility with a wide range of brackets, poles, and fittings. The hot dip galvanising process delivers superior longevity, even in demanding weather conditions or corrosive atmospheres.
