

# TELENCO MINI-CSP 4FO

## CUSTOMER SPLICE POINT

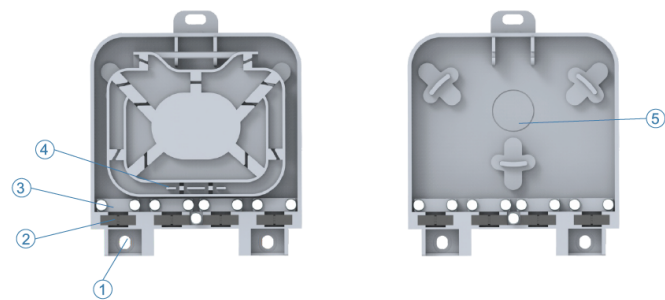

The MINI-CSP 4FO is a compact and versatile fibre splice closure specifically designed for use in MDU (Multi-Dwelling Unit) environments. Ideal for delivering fibre to individual apartments or flats, it supports up to 4 single-mode splices in a protected, space-saving housing. Its low-profile design allows for easy integration into indoor risers, wall cavities, and confined utility spaces. Engineered for fast installation and long-term reliability, it's the ideal solution for the final stage of FTTH deployments in residential buildings.

### FEATURES & BENEFITS

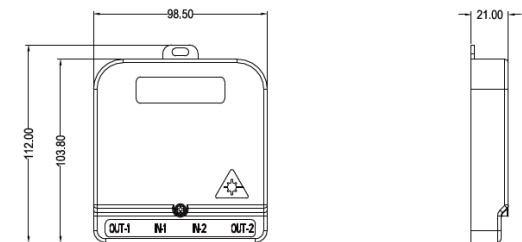

- Compact and rugged design
- Easy installation and maintenance
- Safe and secure cable management
- Reliable communication
- Time and cost-effective installation
- UK standard compliance and capping compatibility
- Flexible cable storage
- Possibility to be branded

### INTERNAL COMPONENTS

- 1.External Mounting Hole
- 2.Cable Entry Point 4.4F Splice Area
- 3.Cable Fixing Point
- 5.Rear Distribution Point

### MECHANICAL DRAWING (UNIT:MM)

### TECHNICAL SPECIFICATION

Number of Splices	4F
Capacity	4
IP Rating	IP 55
Mounted Method	Wall mounted
Splice Method	Heatshrink
Cable Loaded	Drop or Mid-Span
Material	Material PC+ABS UL-94-V0
Colour	Grey

### DROP CABLE ENTRY

Name	Type:A	Type:B
Number of drop cable exit points	1	2
Cable diameter	3-8.5mm	3-8.5m

### ADDITIONAL ACCESSORIES

BT Capping 25

BT Connector Bend No.4

BT Cover 101A
