

TELENCO® 32/31 FLEXIBLE STAY WIRE

The Telenco® 32/31 is a steel flexible wire consisting of 7 twisted strands of Ø 2.1mm. It is used for enabling stay wire applications or as a messenger wire during overhead cable line deployments.

PN	MODEL	Ø	MBL*	Weight	PACKG
0179	32/31	6.3mm	1600d aN	0.20kg	100m

*MBL = Minimum breaking load

FEATURES & BENEFITS

- High mechanical strength
- For pole reinforcement or aerial deployment
- Compatible with various fastening methods

CABLE CONSTRUCTION

- Rugged construction: 7 twisted strands of Ø2.1mm each
- Material: hot-dip galvanised steel
- Mechanical strength >1600daN
