

DUCT REDUCER 96MM TO 54MM – GREY PVC – PUSH FIT

CABLE DUCTING

The Duct Reducer is a **PVC telecommunications duct fitting** that provides a transition between **96 mm and 54 mm** ducts in underground cable infrastructure, for reducing or enlarging duct connections. A simple **push-fit** joint connects compatible duct sections without complex installation. Finished in **light grey** for telecoms duct identification, keeping colour consistent with existing infrastructure. It can also be used with compatible **BT Quadbox** systems, for new installations, duct modifications and maintenance.

Dimensions: 96 mm to 54 mm duct

Weight: TBC

Packaging dimension: TBC

FEATURES & BENEFITS

- Connects 96 mm and 54 mm telecoms ducting
- Reduces or enlarges duct connections
- Simple push-fit joint for straightforward installation
- Manufactured from PVC
- Light grey finish for telecoms duct identification
- Compatible with BT Quadbox installations
- For new installations and existing duct modifications

TECHNICAL SPECIFICATION

Properties		Value
Product type		Telecoms duct reducer
Fitting type		Reducing adaptor
Duct size (mm)	Larger	96
	Smaller	54
Material		PVC
Colour		Light grey
Pack quantity		1

CODE	MODEL	DIMENSIONS	WEIGHT	CONDT	PACKAGING DIMENSIONS	PACKAGING WEIGHT
DUCT/54/A	Duct Reducer 96 to 54 mm	96 mm to 54 mm	TBC	1	TBC	TBC

APPLICATIONS

- Underground telecommunications duct installations
- BT Quadbox and chamber duct connections
- Fibre optic and copper cable duct networks
- Duct modifications, extensions and upgrades
- Telecoms and utility network maintenance
- Civil engineering and groundwork projects

INSTALLATION & COMPATIBILITY

Properties	Value
Connection	Push fit
Compatible duct	Telecoms PVC duct
System compatibility	BT Quadbox
Primary application	Duct size transition
Environment	Underground telecoms infrastructure
