

DUCT 54D SPLIT – 97MM OD – 3M – GREEN – RIGID PVC

CABLE DUCTING

The Duct 54D Split is a **heavy-duty rigid PVC duct** for repairing existing **Duct 54** telecommunications infrastructure. Split **longitudinally into two halves**, it fits around installed cables without removing or disconnecting them, protecting exposed or damaged sections of underground ducting. Its thick-wall **tongue-and-groove** profile aligns the two halves for a secure, consistent fit. Supplied in **3 m lengths** in green, for telecoms engineers, utility contractors and civil engineering teams.

Dimensions: 97.2 mm OD x 3000 mm (L)

Weight: TBC

Packaging dimension: TBC

FEATURES & BENEFITS

- Heavy-duty split duct for repairing Duct 54 infrastructure
- Thick-wall rigid PVC construction
- Longitudinally split into two halves
- Tongue-and-groove profile for accurate alignment
- Installs around existing cables, no removal needed
- Protects existing telecommunications cables
- Supplied in 3 m lengths, green finish

TECHNICAL SPECIFICATION

Properties		Value
Product type		Split telecommunications duct
Designation		54D, for Duct 54
Material		Rigid PVC, thick wall
Profile		Tongue & groove, 2 halves
Dimensions (mm)	Nominal OD	97.2
	Internal diameter	87.6
	Nominal wall	4.8
	Length	3000
Colour		Green
Pack quantity		1 x 3 m length

APPLICATIONS

- Repairing existing Duct 54 installations
- Replacing damaged duct sections
- Protecting existing copper and fibre optic cables
- Underground cable route refurbishment
- Telecoms and utility network maintenance
- Civil engineering and groundwork projects

SPLIT HALVES

Duct separated into its two tongue-and-groove halves
