SINCE 1933.

FIBREGLASS SWINGBACK STEP LADDERS

TNGFHS Series

Designed to excel in high-risk settings, the Titan Fibreglass Swingback Step Ladder provides a secure, stable solution for working at height near electrical currents.

KEY BENEFITS

- **Non-Conductive Fibreglass Stiles:** Built for electrical safety.
- **Integrated Tool Tray:** Keeps essential tools and accessories within easy reach for maximum efficiency.
- **Slip-Resistant Steps:** Designed for a firm grip, ensuring secure footing in demanding work environments.
- **Professional-Grade Safety:** Certified to EN131 Professional standards, offering assurance of top-tier safety and quality.
- **Heavy-Duty Performance:** Supports up to 150kg, meeting the needs of home use and trade professionals.

Code	No. of Treads	Weight kg	Open Width mm	Open Height mm	Max. Standing Height mm	Approx. Working Height mm*
TNGFHS4	4	5.4	813	1025	253	2003
TNGFHS5	5	6.7	993	1287	514	2264
TNGFHS6	6	7.6	1173	1548	775	2525
TNGFHS8	8	10.1	1533	2071	1298	3048
TNGFHS10	10	12.6	1894	2594	1821	3571

*Where applicable, the Approx. Working Height is calculated by adding 1750mm (5'8") to the Max Standing Height.
