

TED® 1000V INSULATED FLAT SCREWDRIVER

TED®

The ergonomically handled flat-head screwdrivers are recommended for electrical applications up to 1000V.

CODE	DESCRIPTION	WEIGHT	PACKG
32051	1000V insulated flat-head electrician screwdriver – 2.5 x 75 mm	0,04 kg	unit
32052	1000V insulated flat-head electrician screwdriver – 3 x 100 mm	0,04 kg	
32073	1000V insulated flat-head electrician screwdriver – 3.5 x 100 mm	0,04 kg	
32053	1000V insulated flat-head electrician screwdriver – 4 x 100 mm	0,06 kg	
32074	1000V insulated flat-head electrician screwdriver – 4.5 x 125 mm	0,05 kg	
32075	1000V insulated flat-head electrician screwdriver – 5.5 x 125 mm	0,07 kg	
32054	1000V insulated flat-head electrician screwdriver – 6.5 x 150 mm	0,11 kg	
32055	1000V insulated flat-head electrician screwdriver – 8 x 175 mm	0,17 kg	

TECHNICAL CHARACTERISTICS

- Tip Type: Flat / Slotted
- Tip Dimensions: From 2.5 mm to 10 mm
- Blade Length: From 75 mm to 200 mm
- Standards:
EN 60900
IEC 900

PRODUCT FEATURES

- **Ergonomic:** Bi-material handle with a shape designed to prevent musculoskeletal disorders (MSDs) thanks to multi-component softgrip technology.
- **Increased Efficiency:** Fast, precise, and durable performance thanks to a hardened precision blade made from chrome-vanadium-molybdenum steel
