

Multi-purpose Mountable WIFI Video Borescope with 1m Telescopic Pole

A standard snake camera's tube is flexible and soft, so sometimes it is hard for a user to inspect a place where there is no good support for the tube because the tube will be bent and the inspection job won't be finished quickly. With the 1m telescopic pole, this camera can do a lot of jobs more conveniently and quickly.

PN	MODEL	PACKG
W2425	Multi-purpose Mountable WIFI Borescope	1

Net Weight: 41g (camera body)

SPECIFICATIONS:

- Frequency:2.4GHz WiFi
- Resolution: 720p (1280 x 720)
- Water Resistant Rating: IP67
- Viewing Angle: 58° (horizontal)
- Operating Time: 80~110 minutes (depends on the brightness of LEDs)
- Charging Time: 70 Minutes
- Charge Voltage: 5VDC
- Charge Port: USB Type-C
- Weight: 41g (camera body)
- Size: 82 (L) x 31(dia.)mm
- Battery Capacity: 500mAh
- Battery Type: Lithium Polymer
- Length of Telescopic Pole: 1m
