

CABLE GRIP SINGLE EYE

CABLING GRIPS

FEATURES & BENEFITS

- Single Closed-Eye Design: Provides a strong and secure pulling point
- High-Tensile Wire Mesh: Contracts under tension for a reliable grip
- Heavy-Duty Construction: Withstands rigorous use in the field
- Versatile Application: Ideal for telecom, utility, and infrastructure projects

The Cable Grip Single Eyes a heavy-duty cable pulling solution designed for securely gripping and drawing cables during installation. Suitable for a range of cable diameters, these single-eye closed grip is ideal for demanding applications in telecom, power, and construction environments.

Constructed from high-tensile wire mesh, the grip tightens around the cable under tension, delivering a firm, slip-resistant hold for safe and efficient pulling. Its robust build ensures long-lasting performance, reducing installation downtime and enhancing safety.

CODE	DESCRIPTION	UNIT
GRIP/C/0	Grip Cable S/E 1/4inch (6-13mm)	1
GRIP/C/1	Cable Grip SE 0.5inch (13-19mm)	1
GRIP/C/2	Cable Grip SE .75inch (19-25mm)	1
GRIP/C/3	Cable Grip S/E 1inch (25-38mm)	1
GRIP/C/4	Cable Grip S/E 1.5inch 38-51mm	1
GRIP/C/5	Cable Grip S/E 2inch (51-63mm)	1
